PRESENT LEVELS OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE

Ventura County SELPA IEP

Student Name Nambi, Lakshmaan S D.O.B. 8/18/2002 Meeting Date 10/26/2021

Describe present levels of performance in terms of general education expectations. Scores alone are not sufficient. Include specific strengths and weaknesses from the results of all evaluations including any state and/or district-wide assessments, as well as classroom performance. Areas of performance affected by the student's disability must be addressed in IEP; if not, provide rationale in the appropriate box below.

Parent/Student Educational Concerns and Comments:

Academic: Reading

2021: Laks selects some words (he, you, in, see, other) from a field of three when shown the sign and the word is finger spelled. Reliability increases when he fingers spells the word along with the interpreter. He continues to have access to a modified reading curriculum (i.e., Unique). He answers a variety of reading comprehension questions regarding text read to him. He continues to work on identifying and following community signs in the community with supplemental practice in the classroom.

☑ Annual Goal(s)

Cognitive Functioning

10/2021: Please see next page.

Vocational/Prevocational/Community Access

2021: For safety reasons, he requires close monitoring when moving throughout the campus. He follows ongoing directions and a live model to complete various campus or classroom jobs. At jobsites he appears to enjoy refilling the napkin holders, wiping windows, and wiping the tables and chairs. He requires access to a transport chair in the community for safety reasons. He fatigues quickly and has been observed to drop to the ground.

☑ Annual Goal(s)

Academic: Written Language

2021: Laks legibly writes his first name. He copies words when finger spelled to him. When attending, Laks continues to follow a written model to type into a search bar or other word processing devices.

❑ Annual Goal(s)

Communication

10/2021: Please see next page.

☑ Annual Goal(s)

Self-Care/Independent Living

2021: Laks follows an hourly bathroom schedule where he is prompted to go using a bathroom icon paired with the sign. When in the bathroom, he has the ability to complete each step of the procedure with minimal support. He does benefit from verbal encouragement, without he sits on the toilet for long periods of time or attempts to clean small fragments of trash from the floor. He follows ongoing directions to complete a tooth brushing procedure. He is working towards following a grooming schedule.

☑ Annual Goal(s)

Academic: Mathematics

2021: Laks rote counts, using sign language to at least 30. He is able to reliably count items using 1:1 correspondence up to 5 when presented with smaller 2D pictures. Reliably for counting using 1:1 correspondence increases when provided larger items and/or manipulatives. He does not reliably identify dollar bills and coins. When making purchases in the community he follows ongoing directions and prompting to count out the necessary monies and hand the money to the cashier. He does not reliably identify measuring cups

☑ Annual Goal(s)

Motor Abilities and/or Recreation/Leisure

10/2021: Please see next page.

❑ Annual Goal(s)

Health Status/Summary

Hearing: Date 11/7/2021 ❑ Passed ☑ Failed

Vision: Date 11/7/2021 ❑ Passed ☑ Failed

Corrective Lenses: ❑ Yes ☑ No

Medication: ☑ Yes ❑ No if yes, list below:

Claritin-10mg daily, Epi-pen as needed, Tylenol as needed for pain/headache-check with parent first before administering

Overall Health:

2021: Overall health is good. Allergies to Latex, Figs, Amoxicillin, & Augmentin. Epi Pen available at school if needed. Laks has a cochlear implant and

Overall				

Social Emotional/Behavioral Functioning

2021: Laks benefits from the use of a token economy to reinforce on-task, safe behaviors, and the use of alternative behaviors (i.e., chewy). Typical antecedents to problem behavior include; denied/delayed requests, non-preferred task/activities, and internal enhancers. When prompted using ASL Laks has been observed to request a break from the target task. He benefits from a visual classroom schedule.

☑ Annual Goal(s)

Additional Information:

Laks benefits from a token economy and a high rate of reinforcement in order to increase attending to instruction. He does best with frequent breaks and access to sensory input (e.g., hand squeezes, chewy).

Impact of Disability *Describe how student's disability affects student's involvement and progress in the general education curriculum and/or participation in age appropriate activities:*

Laks demonstrates multiple cognitive, physical and social-emotional delays, and has a profound hearing loss, which significantly impact his ability to communicate with peers and adults, learn basic information, and follow routines without close supervision. He requires routine and predictability while following a picture/realia schedule.

10/2021 COMMUNICATION:
Lakshmaan has consistently participated in school activities on campus this year. Lakshmaan participates in individual and group speech sessions with assistance from his interpreter. Lakshmaan's functional communication skills include gestures, facial expression, signed words, and signed phrases. He communicates appropriately by responding to questions involving his choices or his schedule. Lakshmaan shows frustration by grabbing his face or biting his hand. He can be redirected to take a break for 2-3 minutes before coming back to finish a task. Lakshmaan sometimes initiates a request for a break or for preferred activities such as eating or riding in his chair. He uses a variety of functional signs and sign approximations to respond to questions and make requests. Receptively, he follows single step directions that are signed to him. Lakshmaan is most successful following a classroom routine and he benefits from visual schedules which help keep his attention focused. Socially, Lakshmaan waves to greet staff and peers and participates in groups by responding to questions with signed words prompted by his interpreter. He will take a turn in a game when prompted and will wait until it is his turn again. As a non-oral communicator, Lakshmaan's voice quality, volume, and fluency are not of concern. He signs his responses to others. He has an interpreter with him throughout the day to sign other people's comments and responses to him.

To continue to prepare for work and activities outside of school, Lakshmaan would benefit from practice independently completing vocational tasks using visual sequences. In addition, it would increase Lakshmaan's independence in communicating with peers if he referenced a communication board that included frequent topics discussed at school.

10/2021 Occupational Therapy:
Laks transitions from sitting to standing from a chair holding a teacher's arm for additional stability. He also transitions from sitting in a bean bag on the ground to standing using a desk to push up from. He independently walks from the back of the classroom to his desk in front of the classroom. He maintains an upright posture while seated in a chair without arms. However, he was observed to use his left or right hand to prop his head at times while still attending to the lesson. Laks ascend the bus steps with contact guard assistance to monitor for balance. Laks frequently looks to the left throughout his day including while walking. Due to this action while walking, he will bump into things in the classroom, school campus, and community since he is not visually attending. During recreational times of the day, Laks is reported to participate in a couple laps in the courtyard on an adaptive trike.

Laks activates a popper fidget (latex free) through finger isolation with his right index finger. He picked up small food items (ex. trail mix) with a pincer and three jaw chuck grasp. Following set up and cuing to initiate the task, Laks independently activates a spray bottle with his right hand and wiped a desk with a towel with his left hand. With a wide grip pencil, Laks uses a functional pencil grasp, a dynamic tripod grasp. Laks wrote his name on the top of his page. With his ASL interpreter signing the letters, Laks wrote answers for the provided worksheet. He required cuing to visually attend to the task. His writing had limited legibility due to letter formation and inconsistent line adherence. His writing sample demonstrated good spacing and adequate sizing for the worksheet. When attending, Laks is able to write legibly.

Laks is reported to have been born without bilateral semicircular canals. The semicircular canals, located in the inner ear, are part of the vestibular system. Their primary role is to regulate balance by providing information about one's head/ body position. As noted previously in this report Laks frequently looks over his shoulder to his left side. He will do this in both sitting and when walking. This limited visual attention and limited vestibular sensations received limits his balance during gross motor tasks. Laks also demonstrates repetitive movements such as shrugging his shoulders, hitting his fist into a flat hand, clapping hands, tapping the table, clicking his heels together and repetitive facial movements (side to side jaw movement, squinting eyes, tapping teeth). He benefits from use of a latex free theraband at his desk to use while kicking his feet. He also benefits from access to fidgets (latex free) during down times during the school day. Laks has been observed and was reported by his teacher to seek out deep pressure through hand squeezes. He will gesture to teachers to initiate them providing the deep pressure to his hands. When frustrated/upset, Laks will bite his hand and benefits from redirection to a latex free chewy item as a replacement strategy. Lak's shared that Laks will also initiate use of the latex free chewy at times. Laks' ASL interpreter reported that Laks has also benefits from a roll-on aromatherapy oil sent from home to assist with calming when frustrated.

10/2021: Cognitive Functioning: Based on current assessment results, Laks continues to demonstrate cognitive skills below the average range. On the Ordinal Scales, Laks demonstrated solidly developed skills within the first preoperational stage of development, with several skills within the second preoperational stage. He has good matching and sorting skills, can complete sets of graduated tasks by size order, recognizes part-to-whole relationships and demonstrates understanding of symbolic language by receptively identifying body parts and objects and expressively identifying pictures and objects. He demonstrated one-to-one correspondence, understanding of serial order, and classification of items into two different categories (e.g. foods and transportation).

ANNUAL GOALS & OBJECTIVES

Ventura County SELPA IEP

Student Name Nambi, Lakshmaan S D.O.B. 8/18/2002 Meeting Date 10/26/2021

Area of Need: Communication **Responsible Personnel:** Speech-Language Pathologist and Special Ed Teacher

Reason for goal (Describe current needs in this area. Summarize progress on last year's goal in this area, if applicable.):
Laks enjoys working on job tasks at school. After several gestural and signed prompts, Laks is beginning to complete tasks independently. With practice, these skills can be generalized into other settings providing meaning work for Laks.

Baseline (must include observable behavior or skill, current level of accuracy and consistency, & measurement instrument):
Currently, in the learning environment, Laks follows a sequence of visuals to complete 4-6 steps in a variety of vocational tasks (e.g.collating and fastening papers, stuffng envelopes, organizing shelves, restocking student store, etc.) following 4 gestural prompts and 4 signed prompts in 3 of 10 opportunities as measured by observation record over one month.

For EL students, the goal is linguistically appropriate. Specify language of instruction: ☐ **English** ☐ **Spanish** ☐ **Other:**

Annual Goal 1
By 10/28/2022, in the learning environment, Laks will follow a sequence of visuals (written/photographic) to complete 4-6 steps in a variety of vocational tasks (e.g.collating and fastening papers, stuffing envelopes, organizing shelves, restocking student store, etc.) following 4 gestural prompts and 4 signed prompts in 8 of 10 opportunities as measured by observation record over one month.

☐ **Enables student to be involved/progress in general curriculum** **and/or** ☑ **Addresses other educational needs resulting from the disability**

Category: Standard Number **Domain:** Communication

Objective:
By 1/31/2022, in the learning environment, Laks will follow a sequence of visuals to complete 4-6 steps in two vocational tasks (e.g.collating and fastening papers, stuffing envelopes) following 5 gestural prompts and 6 signed prompts in 6 of 10 opportunities as measured by observation record over one month.

Objective:
By 3/31/2022, in the learning environment, Laks will follow a sequence of visuals to complete 4-6 steps in a variety of vocational tasks (e.g.collating and fastening papers, stuffing envelopes, organizing shelves, restocking student store, etc.) following 4 gestural prompts and 4 signed prompts in 6 of 10 opportunities as measured by observation record over one month.

Objective:
By 6/8/2022, in the learning environment, Laks will follow a sequence of visuals to complete 4-6 steps in a variety of vocational tasks (e.g.collating and fastening papers, stuffing envelopes, organizing shelves, restocking student store, etc.) following 4 gestural prompts and 4 signed prompts in 7 of 10 opportunities as measured by observation record over one month.

Parents will receive a report of progress on these goals and objectives at the intervals specified on the Agreement/Attendance page.

ANNUAL GOALS & OBJECTIVES

Ventura County SELPA IEP

Student Name Nambi, Lakshmaan S D.O.B. 8/18/2002 Meeting Date 10/26/2021

Area of Need: Communication **Responsible Personnel:** Speech-Language Pathologist and Special Ed Teacher

Reason for goal (Describe current needs in this area. Summarize progress on last year's goal in this area, if applicable.):
Incorporating some visuals into Laks' communication with peers will help him connect during classroom discussions and on campus activities. Laks often waits for a model from his interpreter before responding with signs. He can also follow a model to point to a picture that represents his comment/request for peers to understand. This skill is good for any time Laks might find himself without an interpreter.

Baseline (must include observable behavior or skill, current level of accuracy and consistency, & measurement instrument):
Currently, in the learning environment, Laks will initiate a request or comment by signing and/or pointing to a picture on a communication board (e.g., transport chair, bathroom, break, outside, iPad, come with me, I like to..., etc.) following a gestural prompt in 4 of 5 opportunities as measured by observation record over two weeks.

For EL students, the goal is linguistically appropriate. Specify language of instruction: ☐ **English** ☐ **Spanish** ☐ **Other:**

Annual Goal 2
By 10/26/2022, in the learning environment, Laks will initiate a request or comment by signing and/or pointing to a picture on a communication board (e.g., transport chair, bathroom, break, outside, iPad, come with me, I like to..., etc.) followng a gestural prompt in 4 of 5 opportunities as measured by observation record over two weeks.

☐ **Enables student to be involved/progress in general curriculum** **and/or** ☑ **Addresses other educational needs resulting from the disability**

Category: Standard Number **Domain:** Communication

Objective:
By 1/31/2022, in the learning environment, Laks will initiate a request or comment by signing and/or pointing to a picture on a communication board (e.g., transport chair, bathroom, break, outside, iPad, come with me, I like to..., etc.) following a model and verbal and gestural prompt in 3 of 5 opportunities as measured by observation record over two weeks.

Objective:
By 3/31/2022, in the learning environment, Laks will initiate a request or comment by signing and/or pointing to a picture on a communication board (e.g., transport chair, bathroom, break, outside, iPad, come with me, I like to..., etc.) followng a model and a gestural prompt in 3 of 5 opportunities as measured by observation record over two weeks.

Objective:
By 6/8/2022, in the learning environment, Laks will initiate a request or comment by signing and/or pointing to a picture on a communication board (e.g., transport chair, bathroom, break, outside, iPad, come with me, I like to..., etc.) followng a model and a gestural prompt in 4 of 5 opportunities as measured by observation record over two weeks.

Parents will receive a report of progress on these goals and objectives at the intervals specified on the Agreement/Attendance page.

DRAFT

ANNUAL GOALS & OBJECTIVES

Ventura County SELPA IEP

Student Name Nambi, Lakshmaan S D.O.B. 8/18/2002 Meeting Date 10/26/2021

Area of Need: Transition - Training **Responsible Personnel:** Special Education Teacher

Reason for goal (Describe current needs in this area. Summarize progress on last year's goal in this area, if applicable.):
Laks would benefit from a variety of way to answer personal fact questions. After practicing in a structured environment multiple times, he response to one personal fact question (i.e., what's your phone number?).

Baseline (must include observable behavior or skill, current level of accuracy and consistency, & measurement instrument):
Laks answers one personal fact question (i.e., what's your phone number) in a structured setting. He has not been observed to utilize and ID card or bracelet to answer such questions.

For EL students, the goal is linguistically appropriate. Specify language of instruction: ☐ **English** ☐ **Spanish** ☐ **Other:**

Annual Goal 3
By 10/26/2022, when asked a personal fact question, Laks will access a form of identification (e.g., ID card, ID bracelet), and present it to the conversation partner when provided with one 1 prompt (gesture) on 9 out of 10 opportunities.

❑ **Enables student to be involved/progress in general curriculum** **and/or** ❑ **Addresses other educational needs resulting from the disability**

Category: Standard Number **Domain:** Self-Care/Independent Living

Objective:
By 1/31/2021, when asked a personal fact question, Laks will access a form of identification (e.g., ID card, ID bracelet), and present it to the conversation partner when provided with one 1 prompt (verbal/gesture) on 9 out of 10 opportunities.

Objective:
By 3/31/2021, when asked a personal fact question, Laks will access a form of identification (e.g., ID card, ID bracelet), and present it to the conversation partner when provided with one 1 prompt (verbal/gesture) on 9 out of 10 opportunities.

Objective:
By 6/8/2021, when asked a personal fact question, Laks will access a form of identification (e.g., ID card, ID bracelet), and present it to the conversation partner when provided with one 1 prompt (verbal/gesture) on 9 out of 10 opportunities.

Parents will receive a report of progress on these goals and objectives at the intervals specified on the Agreement/Attendance page.

ANNUAL GOALS & OBJECTIVES

Ventura County SELPA IEP

Student Name Nambi, Lakshmaan S D.O.B. 8/18/2002 Meeting Date 10/26/2021

Area of Need: Reading / Transition - Employment **Responsible Personnel:** Special Ed Teacher & Occupational Therapist

Reason for goal (Describe current needs in this area. Summarize progress on last year's goal in this area, if applicable.):
Laks would benefit from increase independence when completing vocational jobs, both on campus and at job sites.

Baseline (must include observable behavior or skill, current level of accuracy and consistency, & measurement instrument):
Currently, Lakshmaan can complete three site specific work tasks (ex. animal shelter= fill food bowls, launder towels/blankets, sorting donations, filling Kongs, etc.) with no more than 1 gestural prompt for each task, 0 out of 5 opportunities, as measured by data collection.

For EL students, the goal is linguistically appropriate. Specify language of instruction: ☐ **English** ☐ **Spanish** ☐ **Other:**

Annual Goal 4
By 10/26/2022, in the learning environment, when provided a written and photographic task analysis, Lakshmaan will complete three site specific work tasks (ex. animal shelter= fill food bowls, launder towels/blankets, sorting donations, filling Kongs, etc.) with no more than 1 gestural prompt for each task, 4 out of 5 opportunities, as measured by data collection.

☐ **Enables student to be involved/progress in general curriculum** **and/or** ☐ **Addresses other educational needs resulting from the disability**

Category: Employment: Work Competencies III-A-1 (Standard Number) **Domain:**

Objective:
By 1/31/2022, in the learning environment, when provided a written and photographic task analysis, Lakshmaan will complete two site specific work tasks (ex. animal shelter= fill food bowls, launder towels/blankets, sorting donations, filling Kongs, etc.) with no more than 2 gestural prompt for each task, 1 out of 5 opportunities, as measured by data collection.

Objective:
By 3/31/2022, in the learning environment, when provided a written and photographic task analysis,, Lakshmaan will complete three site specific work tasks (ex. animal shelter= fill food bowls, launder towels/blankets, sorting donations, filling Kongs, etc.) with no more than 2 gestural prompt for each task, 2 out of 5 opportunities, as measured by data collection.

Objective:
By 6/8/2022, in the learning environment, when provided a written and photographic task analysis,, Lakshmaan will complete three site specific work tasks (ex. animal shelter= fill food bowls, launder towels/blankets, sorting donations, filling Kongs, etc.) with no more than 1 gestural prompt for each task, 3 out of 5 opportunities, as measured by data collection.
